

Gunnebo ModuleGuard-VD

Grade II–IV certified burglary-resistant vault doors

- ModuleGuard security enclosures are certified Grade II–IV by ECB•S in accordance with the EN 1143-1 certification for burglary resistance
- A range of attack tools were used to test the level of resistance, from basic tools, such as drills and sledgehammers, to more sophisticated thermal and electrical equipment, like the oxyacetylene torch.
- Possible application areas: reinforced protection for cash-counting rooms, archives, storerooms (for weapons, pharmaceuticals), ATMs, etc.
- A series of high-security locking options is available
- The exterior of the enclosure can be painted or finished with decorative panels. Prepainted or galvanised versions available as an option
